

Foam Supply Kits

Elkhart offers two supply kits. Both kits include:

- One .75" quarter-turn, inlet valve assembly with elbow
- Quick-connect female coupling
- Quick-connect plug with chain
- Brushed stainless steel escutcheon plate
- Foam pick-up hose assembly with quick-connect male coupling

KIT 1

KIT 2

(P/N 81231001) Kit 1 is a built in by-pass foam eductor to utilize an off-board foam concentrate supply — either when the on-board supply has been depleted or to allow use of another type of foam concentrate.

(P/N 81232001) Kit 2 allows the use of an on-board foam concentrate tank with a separate portable foam eductor (such as Elkhart's 240 and 241 series) attached to a pump side discharge; permits easy switching from alternative supply to the on-board supply tank and back as necessary.
